

河北大唐激光科技有限公司
HeBei Datang Laser Technology Co., Ltd

Machine description

Datang UV Laser Printer is specially designed for fix marking
Have obtained a number of patents including the appearance of the machine. And
Operating Systems with Independent Intellectual Property Rights
CE Obtained

Its advantages are

For Machine

1. Excellent performance and simple operation
2. High beam quality, small spot, accurate marking
3. No thermal effect, the material does not deform and does not burn.
4. Fast marking speed and high efficiency
5. Low cost and stable use
6. QR code, bar codes, text and graphics can be well marked
7. 24-hour after-sales service
8. Multi-material marking mark faster and more accurate

For Marking content

1. Text, LOGO, Barcode, Qr code can be marked, the number of print line and font size is not limited
2. Marking content can be modified and edited on computer.
3. Marking content on the pipe is clear and easy to distinguish, permanent and non-erasable, with strong anti-fake and brand promotion performance

Technical Specification for DAT UV Laser Printer

Technical Specification		
Marking Parameters	Marking Range	170mm × 170mm (Range optional: 200mm × 200mm, 300mm × 300mm etc)
	Minimum Character	0.2mm
	Minimum Line Width	0.05mm
	Repetition Accuracy	±0.003mm
	Engraving Linear Speed	≤7000mm/s
Laser Features	Type	UV Laser
	Output Power	3W、5W、10W
	Power Stability (8H)	<±5%
	Beam Quality M2	< 2
Working Environment	Cooling	Air cooling
	Operating Temperature	5℃ ~ 35℃
	Humidity Requirement	40% ~ 80% , non-condensing
	Power Requirement	220V±10%/50HZ
